

SET FOCUS IN white 2700 K

CPO01-3

SET FOCUS is a powerful spot with an adjustable beam angle, which illuminates surfaces, pictures or objects with precision. With a simple rotation of the lamp-head reflector, the light beam can be expanded or focused. As part of the CHOICE system, the CHOICE Configurator can be used to choose between black and white and combine with a variety of different fixtures to create an individual luminaire.

Design: Tobias Grau
